thing of a study to me. geographically. It is a vast territory and Scioto Valley Railways. apon the Nile, and the provinces claimed by Egypt extend almost to the equator. They have annexed all that part of Asia. Egypt has appeared before the world as extending; civilization has West, 9:15 a. m., 3:20 p. m., 5:45 pushed it up to Khartoum and to Gonlokore, and I think quite to the Victoria Nyanza, if not quite to the equator. The annexation of Egypt included not only the Soudan in its proper sense but Karfodan and Darfour. I know

very well a Colonel in New York, a that this division has ever had, Colonel Pront, who was an American and it is to be hoped that the new officer in our war, who went out and took service with the Khedive, and was sent up the Nile and was under Gordon. He said he was himself put in command, by Gordon, of the equatorial provinces, which shows how far they have extended their claims.-Egypt's claim of breaking up the slave trade and extending civilization is not founded in truth. What she did do was to put over the country annexed a set | road, Panhandle Route, will sell of Egyptian governors who were the curse of the country. These governors were mostly bad

characters; but there was one interval of good government, and that was when they sent Chinese Gordon up the Nile to take charge and break up the slave trade. Our knowledge of this great soldier was derived from this Colonel Prout, who was up there for three years. Gordon soon saw the terrible state

of the country, and how the people were oppressed, and he immediately set to work to use his power to relieve the burdens of the people, release them from oppression and to govern them wisely and kindly. The Egyptian goverament gave bim a salary of \$20,000 per year, but he gave it all away, doing everything for the poor. In one sense he ruled with a rod of iron, and enforced obedience, but he ruled with such justice that he acquired an almost supernatural reputation. He is a man utterly ignorant of fear, and exposes himself constantly, and the natives have an idea that bullets can't hit him. He has great executive ability and powers of administration with his courage. With all this he is an extremely religious man, and a man of prayer, and all his acts are as if he was a man of God. and going alone into the desert.

In ten, twenty or thirty years I think there will be a railroad across, and that will settle this Eastern question.

For the moment the whole future of the Soudan depends upon the courage, firmness and judgment of one man— General Gordon. I look on Gordon as the hero of our century. The Doctor has seen not a few

Well, They act surely and quickly, every the morning of the day that the gov-ernor was to leave New York for the Hub Bob turned up rather the worse for wear, and the governor summarily dismissed him; told him to go off and never show his face again. Bob went away and immediately sought Billy Connor, to whom he related his misfor tune. "I'm fired for good, now," he said, with tears in his eyes. "The gov-ernor's awful mad." Connor knew better, and so he told Bob to go home and sleep until afternoon and then come back and see him.

"In the meantime the governor had started for Boston without taking a bit of wardrobe and was in a horrible stew to know what he should do. Miss Anderson, who was on the train, suggested that the next day they could get up early and go to some costumer's in Boston and get something that would do. This did not please Mac much for he is not an easy man to fit, you know, but he thought that was the best thing that could be done. He reached Bos ton in an unenviable state of mind, and put up at the Tremont House." "Where was Bob, all this time?"

"Hold on and I will tell you. Bob went home and slept, and went to see Connor in the afternoon. Connor told him to get together everything that the and go to Boston on the night train, and go to the governor at his hotel into the morning as though nothing had happened. Is composed of Herbal and Machagnous preducts, which permeate the substance of the Lungs, expectorates the nerid matter that collects in the Bronound Tubes, and forms a soothing conting, which relieves the fritation that causes the cough. It cleanses the lungs of all impurities, strengthand them when enfectived by disease, invigorates the circulation of the blood, and brace the nervous system. Slight colds often end in consumption. It is dangerous to neglect them. Apply the remedy promptly. A them. Apply the remedy promptly. A test of twenty years warrants the assertion that no remedy has ever been found that is as prompt in its effects as TUTT'S EXPECTERANT.
A single dose raises the phlegm, another inflammation, and its use speedily cures the most obstinate cough. A pleasant cordial, children take it readily. For Croup it is invaluable and should be in every family.

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungue none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a triding or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured. A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried Ayen's Cherry Presentational, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the Petronal a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your Cherry Petronal saved me.

Croup. - A Mother's Tribute. Croup. — A Mother's Tribute.

"While in the country last winter my little boy, three yearsold, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent does, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wouder as our gratitude? Sincerely yours.

(Continued from last week.) How Watch Cases are Made. It is a fact not generally known that the James Boes Gold Watch Cases really comtain more pure gold than many "solid" gold cases. The demand for these watch cases has led to the manufacture of a poor grade of solid gold watch cases-low in quality, and deficient in quantity. These cases are made from 42 to 10 karals. and a 5 or 6 karat case is often sold for 12 or 14 karnts. It is not economy to buy a watch case so poor in quality that it will' soon lose its color, or one so soft that it will lose its shape and fail to shut tight, thus letting in dust and damaging the works, as one so thin that a slight blow will break the crystal, and perhaps the movement. It IS economy to buy a James Bost Gold Watch Case, in which NONE of these thing ever occur. This watch case is not an experi-Harteron, Pa., Oct 28, 1938.

I sold two James Boss' Gold Which Cases thirty years ago, when they first came out, and they are in good condition yet. One of them is carried by a carpenter, Mr. L. W. Drake, of Harleton, and only shows the wear in one or two places; the other by Mr. Bownsen, of Cummingham, Pa.; and I can produce one or Both of these cases at any time.
